

Welcome Back Everyone! Wow! What a start to term 3. We have started our topic on Space and so far it has been a blast. Have a look at the following slides to see some examples of our brilliant work!

Welcome Back!

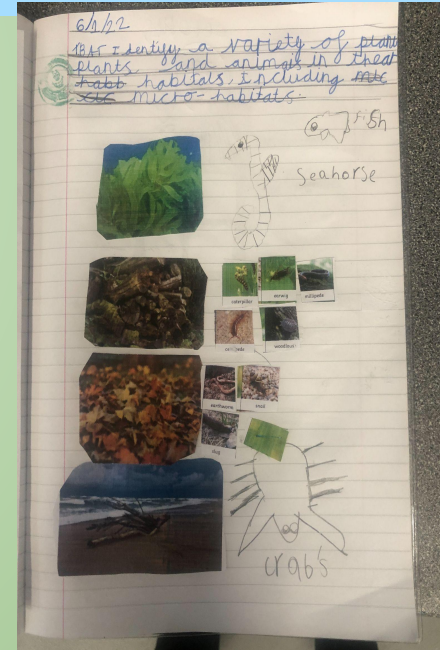

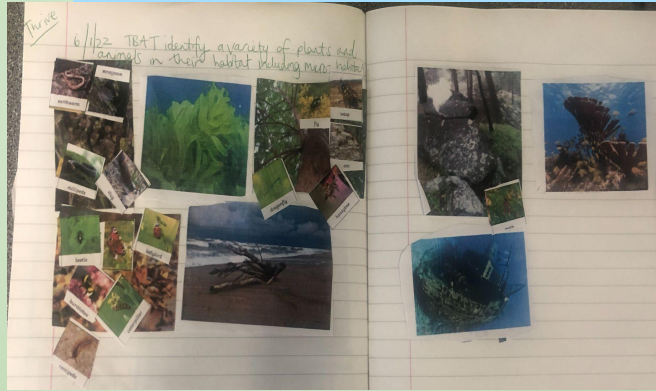

In English, Year 2 have been working very hard, acting out parts of our new story Beegu. We have been using our social skills a lot this week. Working in groups to share resources and, in pairs, imagining that we are Beegu. We explored opinions and emotions. But our favourite activity this week has been the Beegu hot seat.

In Maths, we have been working on division. First, we shared an amount into equal groups and then moved on to dividing an amount through grouping.

In Science, we have been learning about micro-habitats. We have classified a variety of habitats into groups. Using a map of the school grounds we have found potential micro-habitats. We made an informed guess about which minibeast we could find in each micro-habitat. We are going to explore these soon. We will be building our own micro-habitat as well.

In Topic, we have been on a journey through the solar system. We have learnt the names of the 8 planets and found a few more facts about the Sun. We have made our very own mnemonics to help us remember the order of the planets.

In our friday topic session, we got well and truly stuck in and made papier maché planets, which we will be painting next week.
