

We are so proud of how hard Year 2 have been working this term! Have a look at the following slides to see some examples of our brilliant work!

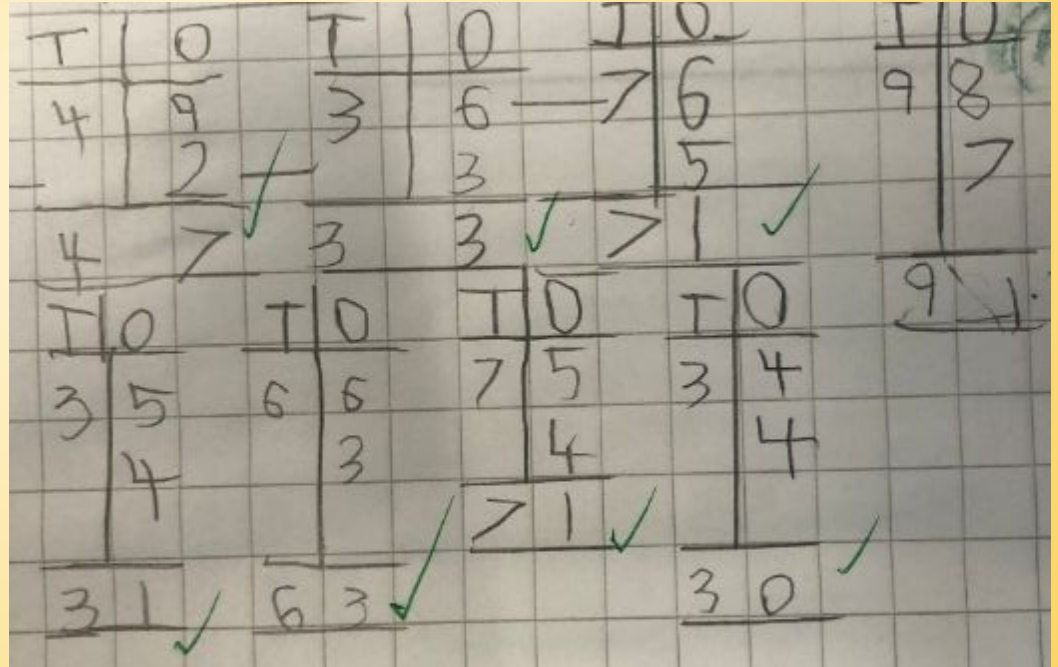

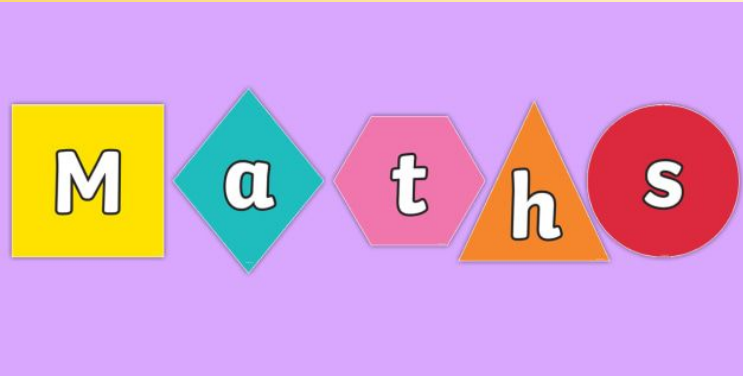

YEAH!!

In English, Year 2 have been working super hard on writing a set of instructions on how to make a pirate ship out of fruit! We have used time connectives, imperative verbs and made sure it is all written in the correct order!

Ahoy me hearties!

In Maths, we have been learning about how important the place value of number can be! We have been using this knowledge to help us with our addition and subtraction this term, making sure we are using lots of manipulatives, like base ten, to help us with our learning!

In Science we have been learning about everyday materials. We have designed our own pirate ships to see if they will survive a sea journey and hold treasure at the same time! We ended up with some very wealthy pirates (and some very wet ones too)!

In Topic, we have been learning all about pirates! We have learned about: the dastardly pirate - blackbeard; modern day pirates and the different seas they sail across. We draw ourselves as pirates, created pirate marionettes and decided what we would want to find in our treasure chests!

Pirates!
