

What a SUPER term!
Our new year ones have had
an incredible first term!

We have been so busy learning about our numbers. Have you ever thought about the sixness of 6? Or the fourness of four? How can you make these numbers? Where do you see them? Well, we know and we know lots more, like five and one makes six and if you add a 2 onto a 2 that makes 4!

As usual in Year 1 we are all about the phonics! We say our sentences and then we write them using our sounds! We have made so many SUPER sentences - we know about full stops and capital letters too. We've written instructions, pea-poems (that was messy) and superhero rules - there is nothing we don't know about being super! Enjoy the photos of the kind of thing we love to do and learn!

What a SUPER term!
Our new year ones have had
an incredible first term!

We've loved
learning more
about our five
senses this term
in Science! We
particularly liked
making maracas
with different
foods, when
learning about
sound and our
sense of hearing!

What a SUPER term!
Our new year ones have had
an incredible first term!

We've loved creating and making with our fingers
using junk modelling and mixed media.

Look at our superhero masks and cuffs, ready for
our Superhero day on the last of term!

Our Superpig jet
packs!
