Term 1 in Year 5

We are very proud of how well Year 5 have transitioned back to school and the hard work they have produced over the past term. Have a look at the following slides to see some examples of their amazing work. Well done to you all!

Year 5 began their term with writing their own version of how King Tutankhamun died. The children were able to pick from 6 historic variants to create their narratives.

They then moved on to writing a playscript of the story of Osiris, the God of the Underworld.

In our reading lessons, the children have been thoroughly enjoying the adventures of Jake Atlas and his sister Pan as they attempt to find their missing parents in Egypt. They will continuing to read this book in Term 2.

At the start of term, the children focussed on place value and understanding number. They then moved on to rounding numbers to the nearest 10, 100, 1,000, 10,000 and 100,000! Year 5 finished the term by looking at multi step problems using both addition and subtraction As a whole school, we are having a big focus on multiplication skills and this term Year 5 have been practising their 4 times tables and will be moving on to their 8 times tables next term.

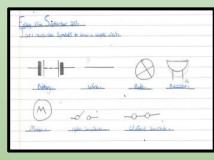

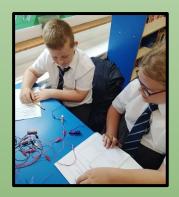

This term, Year 5 have been learning all about electrical circuits.

They have been looking at the components needed to create a working electrical circuit, as well as the symbols needed to draw them.

They looked at what made successful insulators and conductors and then finished off the term by creating their own switches with items found around the classroom.

During our History lessons this term, we have been learning about Ancient Egypt and the Pharaohs that ruled during this time. Alongside this, the children learnt about the role of a Pharaoh and the hierarchy of the leaders of Ancient Egypt. We then had great fun learning the mummification process and even mummified some oranges to try out the technique. After this, the children learnt about what the Ancient Egyptians believed about life after death and even wrote a letter to a very nervous Pharaoh Khufu to reassure them of the process.

As a school, we have been exploring drawing within our Art weeks this term.

The children have learnt drawing techniques such as cross hatching, shading, variation of lines and looking at pattern. They have been using various mediums including charcoal, biro pens and their favourite which was their new artist pencils.

Year 5 have also been looking at different colouring techniques including burnishing, blending and block colouring.

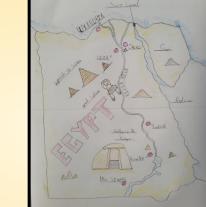

We used these new skills and techniques to draw from observation, including still life objects and on location drawing. The children also learnt about the female american artist, Ernst Haeckel and attempted to recreate his work.

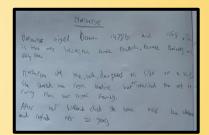

This term, Year 5 where lucky to be chosen to host the first 'Funs Festival' of the year. This was a time for the children to participate in fun PE activities with their adults from home. Each activity earnt them a puzzle piece that they then had to put together to find their famous sports person or place. Lots of fun was had by children and their adults!

We have been very impressed with the home learning that has been being produced across Year 5 this term. The children have enjoyed sending us lots of photos and videos on Class Dojo, which have been a joy to look at and share with the rest of the class!
We have received some amazing pieces - thank you for completing this with such amazing efforts!

Well done! Well done to all of you for working so hard in Term 1. We are very proud of you!

Ms Daniells, Mr Holiday, Mrs Lake & Mrs Taylor as well as all of the other adults in Year 5.
