

Term 2 in Year 1

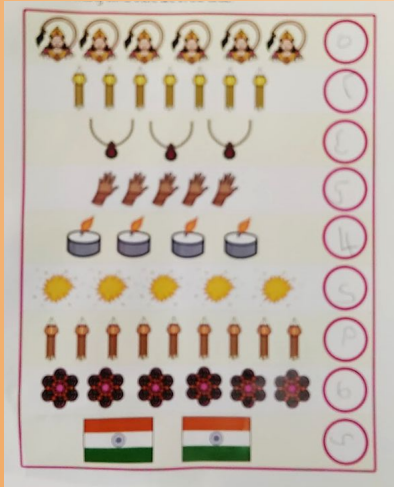

What an awesome term we've had learning all about Autumn and Winter and how seasons change! Our Year Ones have continued to shine in all aspects of their learning.

Maths

This work shows a part-whole model using the number bond $6+2=8$. The children have learnt about the fact families associated with this number bond.

In Maths this term we have been counting to 30 and using the part whole model and tens frames to add and subtract numbers to 20.

In English we have learnt about The Gunpowder Plot - we wrote safety rules for Bonfire Night!

For Diwali, we acted out the story of Rama & Sita and then we enjoyed 2 stories from Percy the Park Keeper series, 'After the Storm' and 'One Snowy Night.'

These stories help the children to learn about the seasonal changes and how animals adapt!

English

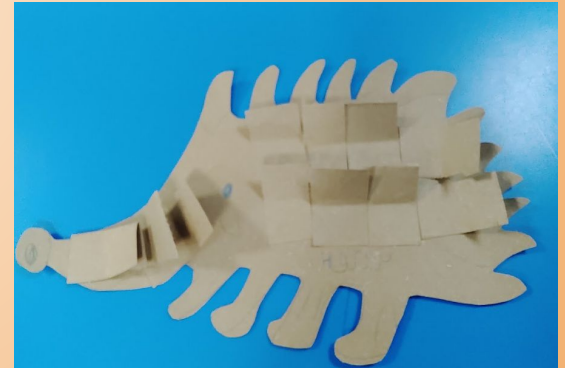

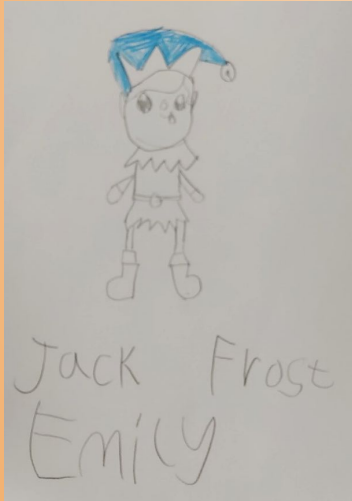

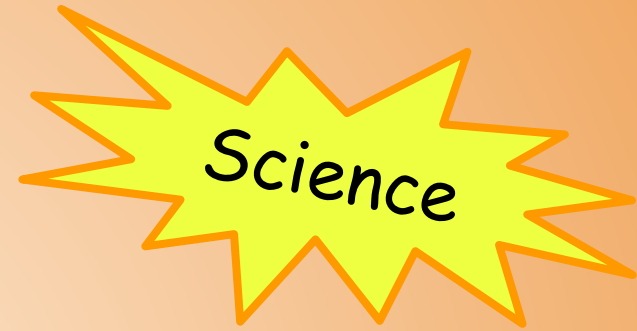

The foxes for down
and patsie kept
the animals

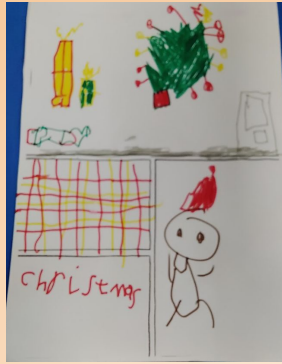

Hedgehogs like to
stay warm in the
winter.

In term 2 we have loved learning about seasonal change in Science which has helped us create some fantastic artwork with leaf rubbing and leaf crowns. We have noticed the weather has turned colder and have been measuring how much rain has been falling in our outside area - we have been getting more recently!

Freeflow

In our Freeflow learning we've learnt a great deal about weather and climate. We've learnt about hot and cold areas of the world - we especially enjoyed learning about Polar animals brrrrrr! We learnt what the equator is and the Northern and Southern Hemisphere.

We learnt about how weather affects our lives, the clothes we wear, where we may go and what we may do. We learnt about different annual events which happen in different seasons over the course of the year.

Art

We've developed our art skills this term through looking at artworks by Richard Long. Of course, we created many of our own masterpieces too!

We have loved decorating our Christmas trees and holiday hoops this term; we feel very festive!
