

Want to get your child screened for type 1 diabetes?

The ELSA study, led by the University of Birmingham, is screening children, aged 3-13 years to find out their risk of developing type 1 diabetes. This is a simple finger stick blood test, that can be done at home and at venues across Kent:

KCHFT Clinics:

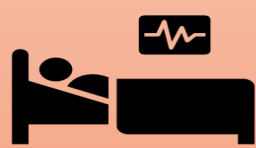

- Dover Health Centre (Room 39): 31st July
- Queen Victoria Memorial Hospital (Conference Room): 5th of August
- Deal Community Clinic (Health Education Room): 12th of August, 9-4 each day.

- One You shop, Ashford, Park Mall shopping centre: Wednesday the 24th of July, 9-2

- Discovery Planet, 47 High Street, Ramsgate: Thursday 25th of July and Friday 23rd of August, 9-3 each day.

Children at high risk can be monitored and could enter research studies aiming to delay the start of type 1 diabetes. Every family who takes part is helping us to understand more about type 1 diabetes.

Benefits of screening for type 1 diabetes:

 More frequent check-ups	 Start treatment sooner	 Stop you getting too sick	 Access to research studies
--	---	---	---

If you would like to take part, please fill in the eligibility form: https://redcap.link/The_ELSA_Study

You can contact us by email: elsa@contacts.bham.ac.uk or phone: 0121 414 7814 for online or postal consent options

Contact KCHFT Research team: kchft.research@nhs.net or phone: 0300 0132078

Thank you.
