

## Year 5 Website Update

Year 5 have settled back into school exceptionally well in Term 5. They were eager to share their news about what they did over the holidays!

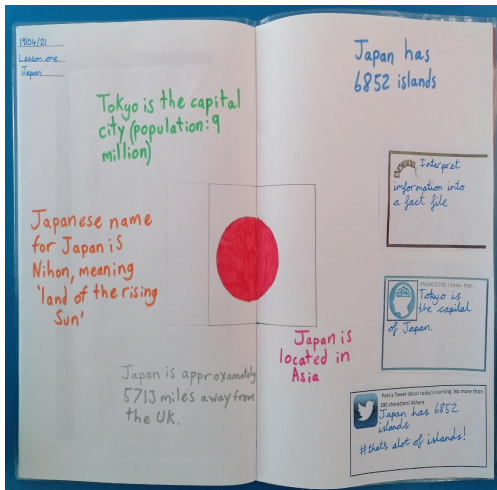

Within maths lessons, the children have been continuing learning about fractions and over the course of this week have learnt how to add and subtract fractions with the same denominator.

Have a look at Mirela's amazing maths work:

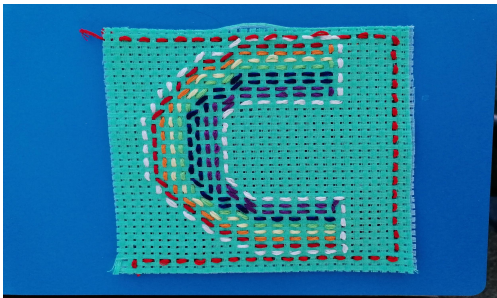

children learnt Laila!

In Topic lessons, we have started learning about Japan. The were very knowledgeable in their first lesson and we also how to pronounce important places in Japanese, thanks to Take a look at Holly's work from this week...

At the end of Term 4, Year 5 took part in a Design and Technology week, where they learnt how to sew materials together. Shaded created an amazing piece of sewing and made a beautiful rainbow.

In English, the children were excited to develop their own creative ideas for a narrative based upon an old, derelict house.

They discussed ideas and shared plot twists and we are looking forward to

reading their stories. Have a look at Vinnie's plan...
