At Westlands Primary we use a communication App that you can download and use.

The App is provided by a company called Weduc and will provide one platform where you will be able to find out valuable information about what is going on in school and much more.  Some of the key features of the App include:

· The newsfeed
· The school calendar
· Being able to check your child's attendance and report an absence
· Book parents evening appointments
· Book extra-curricular after-school clubs (we will notify you when this feature is 'live')
· Inform us of any change of details
· Notices about events
· Link to Parent Pay for all payment items

Once your child is on roll with us you will receive an activation code and details about how to first log in.

Please note that this App will be our primary source of sharing information with you, and so **it is really important that you register your account as paper copies will not be sent home.**
